Legend or History?

We may never know, but what we do know is that the Tale of the Goats has stood the test of time... The story begins with Kaldi, an Ethiopian goat herder. One morning Kaldi awoke to find his goats missing. After spending the day searching, he stumbled upon something quite extraordinary.

The goats were found dancing around a shiny, dark-leaved shrub while devouring its cherries. Kaldi joined in, to find that he was filled with energy he couldn't contain! His goats had accidentally come across what would become the world's most popular bean... The coffee bean!
